## Calutech Sleep Apnea Mobile Units

Mobile Sleep Apnea units provide the flexibility of operation as a stand-alone unit, or as an auxiliary addition to an existing facility. Calutech mobile units are designed to meet current state, ADA and local health and safety requirements. They accommodate all types of monitoring systems and are safely moved with any standard tractor and an individual can set up and take down the unit within minutes.

## Sleep Apnea

### Mobile Unit

Calutech Sleep Apnea units are designed for efficient operation, durability and patient and operator comfort. A robust basic structure is fitted with all aluminum lower bays, reinforced perimeter extrusions and pre-hung aluminum doors to insure long-term performance.

Patient comfort is of utmost importance in a sleep apnea testing unit. Each bedroom features a double bed, television and sink - as well as your choice of interior finishes.
